# Clean L

## Special Hand Cleanser

containing solvent

### FIELD OF APPLICATION

To remove heavy soiling such as paints, lacquers, resins, various types of adhesives etc., especially when pr88 was not used for preventive protection.

### FUNCTION

Dissolving and emulsifying of dirt clinging to the skin, using gentle and dermatologically harmless solvent and re-moisturizing components.

### APPLICATION

After work, apply one or two milliliters to your hands and rub in thoroughly, until the dirt has loosened - then wash-off with the gradual addition of water.

### COMPOSITION

alkali-free syndet with anionic and non-ionic tensides, re-moisturizing component and solvent. Free of abrasives.

### CONTAINER SIZE

1 litre-standard bottle

### DOSING AIDS

Please refer to pr-Dispenser leaflet.
