

pr

Clean L

Special Hand Cleanser

containing solvent

FIELD OF APPLICATION

To remove heavy soiling such as paints, lacquers, resins, various types of adhesives etc., especially when pr88 was not used for preventive protection.

FUNCTION

Dissolving and emulsifying of dirt clinging to the skin, using gentle and dermatologically harmless solvent and re-moisturizing components.

APPLICATION

After work, apply one or two milliliters to your hands and rub in thoroughly, until the dirt has loosened - then wash-off with the gradual addition of water.

COMPOSITION

alkali-free syndet with anionic and non-ionic tensides, re-moisturizing component and solvent. Free of abrasives.

CONTAINER SIZE

1 litre-standard bottle

DOSING AIDS

Please refer to pr-Dispenser leaflet.
